CET Color Reaches Agreement with National/AZON To Sell and distribute CET Color Grand- and Wide-Format Flatbed and Hybrid Printers

Atlanta, GA – April 20, 2015 – CET Color, a leading manufacturer of UV flatbed and hybrid printer technology, as part of its continuing growth strategy, has entered an agreement with National/AZON Equipment for sales and distribution of their award winning Q5 Series line-up of UV flatbed and hybrid wide format printers.

“With the increasing demand for professional, high-quality print projects across a broad variety of market segments, CET Color is committed to expanding our sales channel and providing customers with greater access to the UV printing solutions necessary to exceed customer standards today and into the future,” says David Cich, COO of CET Color. “Because of that CET Color is pleased to add National/Azon Equipment to our wide and grand-format printer distribution network.”

National/AZON Equipment is a division of National/AZON a manufacturer of specialty media for the print for pay market. They are a primary national distributor of technology products from top national brands, serving their core competency, the reprographic professional, in North America. NAE is committed to reseller only sales and their marketing and customer service focus is based solely upon the reseller. National/AZON Equipment is a very well known and respected organization in great part due to the many partnerships they have developed in their community over the many years their executives have worked in the industry.

About National/AZON Equipment

NAE is a leading distributor of hardware and software products, with a special focus on the reprographic, graphic arts & sign making markets. With manufacturing, sales and distribution facilities across North America, National / AZON Equipment continuously innovates to meet the ever changing needs of large format printing and scanning professionals. NAE has a nationwide presence in the marketplace and will continue to support the principle of reseller only sales to the print for pay and graphics industry.

About CET Color

Headquartered in Atlanta, GA, CET Color builds large-format Flatbed & Hybrid UV printers. Utilizing state-of-the-art UV curable ink sets that are VOC free and eco-friendly, our printers have the ability to print on virtually any substrate. The CET Color Q5-500 & Q5-1000 (SGIA's 2014 Product of the Year for roll-to-roll UV over 96") printers can be custom configured up to 10 print heads & are field-upgradable. CET Color provides you with both quality & performance at a price you won't believe.
